

run for the election. Be much better to have this body not vote for the IPP, to pass LB 128 and get on down the road.

PRESIDENT: Thank you. Senator Dierks, please, then Senator Nelson.

SENATOR DIERKS: Thank you, Mr. President and members of the body. Senator Miller, would you respond?

PRESIDENT: Senator Miller, please.

SENATOR MILLER: I would try.

SENATOR DIERKS: Senator Miller, under the current situation, if a county board appoints a superintendent, or if a county superintendent is elected, in either case the county board still has the jurisdiction or authority to relieve that county superintendent of his duties, does he not, do they not?

SENATOR MILLER: I don't know the answer to that, do you?

SENATOR DIERKS: Well, I think they do, but....

SENATOR MILLER: Even if they are elected?

SENATOR DIERKS: I believe so. Is that not right, Jerry, or Dennis?

SENATOR MILLER: I would not think so, but....

SENATOR DIERKS: Well, I was under the impression if they answered...that the county superintendent answered to the county board for his responsibilities.

SENATOR MILLER: I know it would be much easier to let an appointed position go than an elected position go. I would try and find that out and answer that question for you.

SENATOR DIERKS: Thank you. Meanwhile, I have to rise in support of the kill motion. All the information that I've had concerning the bill has been opposed to it. I have had no one supporting the bill, as far as letters from constituents or from outside my district, so I feel a necessity, right now, to support Senator Lamb's kill motion. Thank you.
